Titolo volume: Mind the Gap: Brain, Cognition and Society - 13th Annual Conference of the Italian Association for Cognitive Sciences

Editore: Università degli Studi di Torino, 2016

Gabriella Airenti, Marco Cruciani, Maurizio Tirassa (eds.)

Foreword to Mind the Gap: Brain, Cognition and Society

These proceedings contain the extended abstracts of the papers and the symposia presented at the 13th Annual Conference of the Italian Association for Cognitive Sciences (AISC) that was held at the University of Torino on November 24-26 2016. AISC 2016 featured three invited talks, respectively by Giorgio Vallortigara, Carlo Severi, Tom Ziemke, various special talks, thirty-six contributed papers, and six symposia. A special symposium was organized to remember the important contribution given to the Italian community of the cognitive sciences by the late Rosaria Conte, former president of our society, who sadly passed away this year. We wish to thank all the speakers and the authors for contributing to the success of the conference. A special thank goes to the members of the Scientific Committee who also acted as reviewers for their generous contribution of time and expert knowledge. We are grateful to our colleagues at the Center for Cognitive Science at the University and Polytechnic of Turin for their multifaceted help. We also thank Elena Fontana and Jacopo Penso for the scientific organization and Cesare Bertone and the Mente e cervello Association, who coordinated the local organization of the conference.
